

Mental Health Ctr of Denver | Building a Career at Mental Health Center of Denver

When an individual comes to work here it's because they have a passion for people and a passion for their career. And that's a-- it's a pathway to a great career.

And I've been here for 24 years. And what helped me with my tenure is not staying in the same position for long periods of time. But when I started, I started as a courier, and from there, moved into other positions until I came into my management position here.

And this is the position that I feel I can continue to grow in with the support of my manager.
