LOCATION	Dahlia Campus for Health & Well-Being
VOLUNTEER SUPERVISOR	Market Farm Manager

PURPOSE

Dahlia Campus Farms & Gardens connects people with fresh, local food. Dahlia Campus features three farms including an aquaponics greenhouse, a 40,000 square foot market farm and Seeds of Power Unity Farm cultivated by Mo' Betta Green. These combined and accessible green spaces support community well-being.

The Dahlia Campus Market Farm relies on seasonal support from volunteers to raise and maintain 100 varieties of fruits and vegetables. Volunteers also support the harvest of items which are included in our Dahlia Farm Stand.

Volunteers will work alongside our farmers and food distribution specialists, providing valuable skills related to growing and distributing food in a community setting. Volunteers will assist with the day-to-day activities of the market farm. Volunteers may be eligible for free and/or discount pricing on produce from the Dahlia Campus Market Farm during their time supporting us.

For more information about the Market Farm visit our [Dahlia Campus Farms & Gardens Webpage](#).
