

ENTERPRISE ZONE TAX CREDIT

The Colorado Enterprise Zone program is designed to promote and assist economically distressed areas by offering state income tax credits to non-profits and their donors. WellPower, formerly Mental Health Center of Denver, is located in one of these Enterprise Zones designated by the State of Colorado to encourage economic growth.

Colorado residents who **make qualifying Enterprise Zone gifts to WellPower in support of our NextChapter program (formerly 2Succeed in Education and Employment)** are eligible for a generous tax credit of up to 25% to use against their state income tax. The tax credit reduces the amount of state income tax you pay, in addition to federal and state charitable deductions you may receive for gifts to charity.

You can nearly double the size of your gift – and the impact of your generosity – without increasing the net cost to you.
